

Certification for Tax Credit under the American Recovery and Reinvestment Act of 2009

Climate Zone 2

Dual Pane Clear or Tinted Glass

Madico manufactures solar control window film that is placed on the surface of glass in exterior windows, doors, and skylights. These window films block up to 80% of the solar energy that enters through these glass surfaces, resulting in lower energy costs of climate control.

Madico, Inc. certifies that the following window film products are eligible building envelope insulation components for **Climate Zone 2** and qualify for the credits allowed under Section 25c of the Internal Revenue Code when applied to **dual pane clear or tinted windows with non-metal frames** based on the 2009 International Energy Conservation Code (and amendments).
